The New Jersey Administrative Code 6A:14-1.2(h) states:

Each board of education shall ensure that a special education parent advisory group is in place in the district to provide input to the district on issues concerning students with disabilities.

The Goals of the Hardyston Township Special Education Parent Advisory Group are:

-To establish a partnership based on cooperation and mutual understanding between parents and the school district to create a supportive and educated parent community.

-To create a forum to gather information and to advise on matters that pertain to children with special needs.

-To encourage the involvement of families in making recommendations regarding necessary accommodations.

-To provide families with resources outside of the school district to aid with concerns or needs.

The Hardyston SEPAG is a place for ALL parents in the community. We want to encourage all families to become involved and aware of what our function is and how we are here to support every family in order to maximize the educational and emotional benefit for all children in our community.
