Regionalization Community Zoom

A comprehensive school regionalization feasibility study involving Hardyston, Hamburg, Franklin, Ogdensburg, and Wallkill Valley has been completed. This study examined opportunities to strengthen our educational programs, enhance efficiency, and improve long-term options for all students in our region.

We invite all community members to join us for a **virtual presentation** of the study's findings. Your participation is important as we review the information together and consider what it may mean for our schools and our students.
